Property Description

At 26 feet deep, this tree lined spring feed lake must be 30 acres or more and it sits in the middle of 185 acres of oak covered rolling hills in the perfect location between Kerrville and Bandera. Barn, great fencing, much of the cedar removed. Overlooking the lake is a large single story rock home, dock on the lake, and guest house. About 55 minutes from San Antonio. At this asking price, and considering the cost to build a lake like this today, you are basically getting the land and improvements free. Lake never got lower than about 12 feet deep during the drought. New pictures coming soon!
